News (<https://electricmiles.com/category/news/>), Thought Leadership

(<https://electricmiles.com/category/thought-leadership/>)

It was my real pleasure to meet Rishi Sunak (https://www.linkedin.com/in/ACoAAC_m1aoBCuAl3tCOFJZho4TVOR6w9XqnbH4) UK Chancellor through our affiliation with Codeac and Spice Startups (<https://www.linkedin.com/company/spicestartups/>) who's been lobbying for startups for having a fair and growth driven policy. The invite only event was to commend tech startups during the

London Tech Week. I must admit over the last few years we had some fantastic policy changes such as SEIS, EIS, R&D and EMI scheme all in place to protect early stage startup while they navigate very bumpy roads of product market fit and external funding. I feel UK is one of the best country to start your company and pursue entrepreneurship.

In my short interaction I asked Sunak (great to see he was engaged in my talks 😊) on how will he ensure that the momentum continues with the Net Zero (<https://www.linkedin.com/company/netzero-website/>) and electrification of the transport network with some tough economical challenges ahead of us with the rise of inflation – his response “we are not stopping”. This is what we want to see in our leadership to fight this tough enemy of climate change. I feel Rishi could be our 1st non-white prime minister which will be amazing to celebrate the diversity of the nation.

Great to be part of this Industry with our contribution through Electric Miles (<https://www.linkedin.com/company/electric-miles/>).

Ready to Electrify Smarter?

We provide everything you need – from certified chargers and top-tier installers to cutting-edge software that reduces energy costs and boosts performance. Book a call with our team to see how Electric Miles can transform your EV charging operations.
